A consensus view of the market over the next 12 months

Compiled by: Glacier Research

The Bull & Bear report collates the performance expectations of leading South African Asset Managers over the coming 12 months. Asset Managers are asked to comment on the expected performance for various asset classes and index sectors; currency levels; commodity prices and the performance of selected global markets. These viewpoints are subject to change in line with changes in economic and market conditions.

About the survey

Glacier Research conducted the survey in February 2023. Eight asset management houses participated in the survey. In all cases the responses were given in consultation with investment officers, strategists or a fund manager who is a member of the company's asset allocation committee.
